As of public knowledge, the Swiss Government has announced a series of measures to prevent the further spread of Covid-19, including advice on remote work arrangements.

On Saturday, the Director General of WIPO addressed all WIPO staff, announcing the measures that will be put in place to proceed with the implementation of the remote working arrangements for all non-essential personnel.

As from Tuesday, March 17th, all the Geneva based staff members of IPOBSD, will start working from their homes.

Considering their past experience while working overseas during missions, it is foreseen that no major disruptions on the service, will occur during this time.

Until further notice, the status of work is "business as usual"; we thank you in advance for your understanding and look forward to your continued cooperation.
