

Q: What are the minimum hardware requirements for WIPO Sequence?

What are the minimum hardware requirements for WIPO Sequence?

These are outlined in Section 1.2 of the WIPO Sequence user manual but are repeated below:

- CPU: 1.6 GHz
- RAM: 4 Gb
- Free Hard Disk: 1 Gb (additional HD can be required for storing the sequence listing information)
- Screen resolution: 1366x768
