Annual Technical Report on Industrial Design Information Activities in 2022 submitted by

Please provide links to your website where the requested information can be found in English, French, or Spanish. Alternately, you may provide text responses instead of URLs if desired. If the information is not available on your website in an ATR language, then please provide text.

URLs in responses should meet the following requirements:

- Link to pages with information in English, Spanish, or French
- The URL will remain stable over time (at least three years, preferably more)
- Goes to the specific information requested, not to a general homepage
- If the URL goes to a long PDF document such as an annual report, please indicate which sections or pages contain relevant information.
- Provide additional instructions for using the URL if needed. For instance, if the page requires the user to login first, or if the requested information requires selecting certain options or filters on the page that can not be included in the URL.

The term "industrial designs" covers industrial designs and models.

Offices which issue design patents should report their design patent information activities in this series of Annual Technical Reports.

In 2022, 71 applications were filed for invention patents. Quantitative data are given in Table 1.1. on the dynamic of receipts comparing indicators for five years.

tab. 1.1.

	5	1	1	4	3

The number of applications received in 2022 decreased by 18.4% comparing to the number of received applications in 2021. Only 3 applications came from a foreign applicant.

In accordance with the Eurasian Patent Convention (EAPC), Kyrgyzpatent received 6 Eurasian applications. A formal examination was carried out on them, and the applications were sent for further examination to the Eurasian Patent Office (EAPO). It should be emphasized that applications are sent through the EAPO-Online system.

During the reporting period, 7 applications were received for the issuance of patents for utility models. Data on the dynamics of receipt of applications for the last five years are shown in Table 2.1.

The table shows that the number of applications received for 2022 decreased by 58.8% compared to the number of applications received for 2021. During the reporting period, no applications were received from foreign applicants.

In 2022, 9 applications were received for obtaining a patent for an industrial design. Of these, 7 applications were received from national applicants and 2 from a foreign applicants, 3 applications from individuals and 6 applications from legal entities.

Data on the dynamics of receipt of applications for the last five years are shown in Table 3.1

In 2022, in accordance with the international procedure for registration of industrial designs under the Hague system, 96 applications were received indicating the Kyrgyz Republic as the country of patenting, published in 40 issues of the Bulletin of International Industrial Designs.

The receipt of applications by ballots is shown in Table 3.4.

I. GENERAL OVERVIEW OF RECENT DEVELOPMENTS IN INDUSTRIAL DESIGN INFORMATION ACTIVITIES CARRIED OUT BY THE OFFICE

Information on the following topics is desired:

1. Outline of main policies and plans aimed at development of industrial design information activities and expected time frames for their realization
2. New projects launched or resumed this year in the context of the policies(plans) mentioned above, short description: aims, partners, tasks
3. Main areas of industrial design information activities and related information and communication technology (ICT) practices which were in the focus of attention last year
4. Statistics: changes in terms of application filings and grants (registrations) with respect to previous year; trends or areas experiencing rapid changes
5. Other matters and useful links (URLs): annual report of the Office, news page, statistics, etc.

II. SERVICES AND ACTIVITIES RELATED TO INDUSTRIAL DESIGN INFORMATION CARRIED OUT BY THE OFFICE

Information on the following topics is desired:

1. Information and support provided by the Office to applicants regarding filing on paper and/or e-filing (instructions, seminars, etc.) - URLs
2. Availability of the application dossier in electronic form
3. Classification and reclassification activities; classification system used, e.g., International Classification for Industrial Designs (Locarno Classification), other classification
4. Other activities

IPC (2022.01)

III. SOURCES OF INDUSTRIAL DESIGN INFORMATION PROVIDED BY THE OFFICE

Information on the following topics is desired:

1. Main types of publications in the field of industrial design information, outline of the content (industrial design applications, design patents, registrations, etc.) and medium (on paper, on CDs, online - URLs)
2. Official Gazettes: main types of announcements, frequency of publication, medium (on paper, on CDs, online - URL), etc.
3. Information products (coverage, medium, etc.) available to examiners, including external documentation and databases
4. Information products (coverage, medium, etc.) and services available to external users; conditions of access (e.g., free of charge, subscription, etc.)
5. Legal status information (kind of information, coverage, medium, etc.)
6. Other sources

IV. ICT SUPPORT TO SERVICES AND ACTIVITIES RELATED TO INDUSTRIAL DESIGN INFORMATION CARRIED OUT BY THE OFFICE

Information on the following topics is desired:

1. Specific software tools supporting business procedures within the Office: general description, characteristics, advantages, possible improvements
2. Hardware used to supporting business processes of the Office
3. Internal databases: coverage, updates, interlinks with external sources
4. Establishment and maintenance of electronic search file: file building, updating, storage, documents from other offices included in the search file
5. Administrative management electronic systems (register, legal status, statistics, and administrative support)
6. Other matters

V. PROMOTION ACTIVITIES AIMED TO SUPPORT USERS IN ACCESS AND EFFICIENT USE OF INDUSTRIAL DESIGN INFORMATION

Information on the following topics is desired:

1. Office's library (if deals with industrial design information): equipment, collection management, network of libraries in the country, cooperation with foreign libraries
2. Publications related to different business procedures and industrial design information sources available to users, for example, books, brochures, Internet publications, etc.
3. Cooperation with universities, technology and innovation support centers, etc.
4. Education and training: training courses, e learning modules (URLs), seminars, exhibitions, etc.
5. Other activities

VI. INTERNATIONAL COOPERATION ACTIVITIES IN THE FIELD OF INDUSTRIAL DESIGN INFORMATION

Information on the following topics is desired:

1. International exchange of industrial design information in machine-readable form (e.g., Official Gazettes)
2. Participation in international or regional activities and projects related to industrial design information
3. Assistance to developing countries
4. Other activities

VII. OTHER RELATED MATTERS
