II. SERVICES AND ACTIVITIES RELATED TO TRADEMARK INFORMATION CARRIED OUT BY THE OFFICE

Information on the following topics is desired:

Matters concerning classifying

1. **Classification and reclassification activities; classification systems used, e.g., International Classification of Goods and Services for the Purposes of the Registration of Marks (Nice Classification), International Classification of the Figurative Elements of Marks (Vienna Classification), other classification**
2. **Use of electronic classification systems and pre-defined terms of the classification applied**

The Nice Classification is used for the similarity examination search, for commercial search and for statistics. The translation of the list of goods and services is available on the web site: <http://tmclass.tmdn.org/ec2/>.

We have been using Vienna Classification in trademark examination procedure for years, but from the September of 2015, Trademark Department started to apply Vienna Classification through the IPAS system.

Matters concerning processing of different types of non-traditional marks (e.g., three-dimensional, motion, hologram, color mark, etc.)

IPO of the Bosnia and Herzegovina allows registration of trademark for the three-dimensional and color signs.
