

b.2.2.6.- Retrievals invalid accessCode

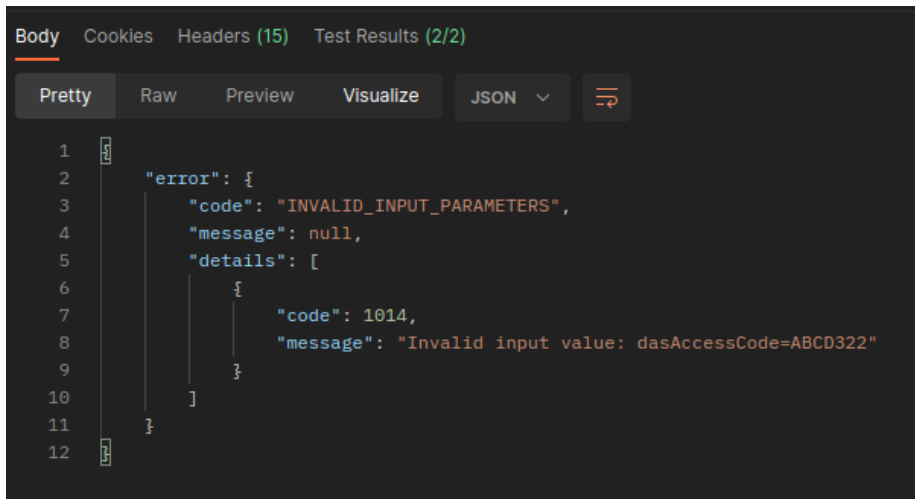

In this retrieval, the issue is the following:

```
POST {{base-url}}/requests/retrievals

{
  "operationCategory": "retrieval",
  "documentKindCategory": "patent",
  "documentNumber": "PCT/IB2021/057852",
  "documentDate": "2021-08-27",
  "dasAccessCode": "ABCD322",
  "applicationCategory": null,
  "applicationNumber": null,
  "applicationFilingDate": null
}
```

The response will report the expected error:

```
Body Cookies Headers (15) Test Results (2/2)

Pretty Raw Preview Visualize JSON

{
  "error": {
    "code": "INVALID_INPUT_PARAMETERS",
    "message": null,
    "details": [
      {
        "code": 1014,
        "message": "Invalid input value: dasAccessCode=ABCD322"
      }
    ]
  }
}
```

The system will report the error it found in the request.
