

List of online WIPO Publish implementations

Using WIPO Publish product from WIPO, number of Industrial Property Offices around the globe went live with their published trademarks and/or patents data on the internet. With the look and feel reflecting national identity of the offices and governments, respective portals facilitate regional /national digital publication platforms and enable inventors, applicants, attorneys as well as local and international IP stakeholders to access and search IP data in local language, among others.

WIPO Publish further simplify and speed up the exchange of IP data with international IP databases such as WIPO Patentscope and Global Brands Database.

The following is a list of IP offices, across regions, which have their services online. The number is expected to multiply over the next months as more and more offices are completing their internal automation platforms and become more ready for public exposure:

REGIONAL OFFICES	URL	SCOPE
