

Roundtable Program

SME innovation and tech transfer in the agriculture and water sectors

November 11, 2016 | 10:00 – 12:00
Hôtel Méridien N'fis

Welcome remarks

Adil El Maliki, Director General, Office Marocain de la propriété industrielle et commerciale, Morocco

A high-level panel

Presenting a selection of innovative cleantech solutions developed by SMEs in order to address challenges in the agriculture and water sectors in Africa. The Panel will discuss the following questions:

- What kind of innovation for the agriculture and water sectors?
- Innovative Africa: What role do SMEs play in the green transition now, and in the future?
- What technologies need to be transferred? From where? Who are the key stakeholders?

Speakers from the WIPO GREEN Network will be present:

- Jukka Uosukainen, Director, Climate Technology Center and Network, Denmark
- Nicolas Lorne, Director and co-founder, Waterpreneurs, Switzerland
- Yorimasa Suwa, Leader, WIPO GREEN working group, Japan Intellectual Property Association, Japan

The panel will be co-moderated by Anatole Krattiger, Director, and Anja von der Ropp, Program Officer, both from the Global Challenges Division, WIPO.

Discussion

with selected clean tech SMEs and the audience.
